Diploma in Workplace Safety and Health - Revised 2017

This workplace safety course begins by introducing you to behavior-based safety and how to develop a culture of safety among employees. You will learn how to recognize the signs of drug use and how to implement workplace policies to maintain a drug-free workplace. The lessons will also cover workstation ergonomics where you will learn tips and techniques on maintaining good posture at workstations. This will ensure long-term comfort and back safety for all concerned.
